Hi, I'm Phillip and I use eHorizon eParliament

Do you sometimes find it stressful to record all the motions discussed during Assembly meetings? Do all your members have access to Assembly meeting documents? Do you have a repository for all motions, Bills or the Hansard?

Our eParliament solution simplifies every aspect of legislative procedures. eHorizon eParliament provides a paperless digital solution to automate the day-to-day events of the Parliament and Legislative assembly.

Get all Relevant Documents from one Central Location

Information Security

Secure Location for all Documents Uploaded

Enhanced Resources

Reduction of Printing and Paper Costs while Reducing Time used in Meeting Preparation

Resource Pack

Get Assembly Publications, Kenyan Constitution, Annual Budget & Audited Reports

"

For a very long time, we have been using a lot of papers in Parliament. As PSC, we decided that we should have a paperless parliament. The eParliament system is simple and once members log in, the order papers are right there and do not need to be printed.

"

Ben Momanyi, Commissioner, Public Service Commision of Kenya

"

This is very good. Accessing the order paper is very easy and seamless. You can just scroll to view the paper.

"

Isaac Mwaura, Nominated Senator, Republic of Kenya

"

I am excited to get into Parliament to see and experience what it means to be paperless.

"

Dennitah Ghatt, Nominated Member of Parliament, Republic of Kenya

How eHorizon eParliament makes Legislation Easier

Create Assembly Meetings Easily Within the System

With eHorizon eParliament meeting preparation time is reduced from hours to minutes. Administrators can easily create and organize meetings. Create agendas once and save as templates for future use, attach shared files and send invitations at a click of a button.

Create and Send Order Papers Easily

It eliminates some administrative headaches like printing, binding and emailing multiple PDFs. Administrators can build meeting packs by importing or dragging files; save drafts until a final version is ready to publish; and share with users at a click of a button. Also, last-minute revisions to meeting materials can be made quickly and shared instantly.

Access Important Information from a Central Place

eHorizon eParliament gives members instant access to all information necessary to effectively govern the organization. Members can search everything from past meeting materials to the Hansard, Committee Meetings materials, Audit Reports and more

Increase Member Engagement

Intuitive voting, signing, robust survey and discussion tools allow members to be more engaged. No longer is member collaboration confined to the Assembly. Vote and survey tools allow members to give candid feedback.

Chair Communication

Access Information on Rulings by the Speaker. eParliament enables access to rich, contextual information to everyone involved in parliamentary process, anywhere and on any device.

Make Annotations on Documents

Users have complete flexibility to comment on documents using highlights, sticky notes or voice-over and share at a click of a button from anywhere. Notes are retained even if pages of a published document are edited or removed for future reference.

Track Bills and Motions Progress

eHorizon eParliament offers a 24/7 overview of the House Bills and Motions. It captures the Subject, Notice of Motion, Proposer and Seconder. Members can view and track progress towards deliveries and deadlines from Motion/Bill proposal through to conclusion.

Member Details Repository

eHorizon eParliament offers an all-round view of all the House Members. Users can view details of Committee, Senate and National Assembly members.

Simpler is Better! How it Works

Our eParliament platform is available on Software as a Service mode (SaaS) model accessed through the web, android and IOS platforms.
The SaaS software delivery has many advantages;
• Rapid implementation • Scalability • Cost effective • Simplified billing

Our Top Notch Security

Infrastructure Security
SSAE16- and ISO 27001- compliant hosting

Redundancy
Similar data is stored in multiple locations with automated failover and a 99.99% SLA guarantee

Network Security
All data and communications – encrypted using HTTPS and TLS protocols

Audit Trail
Track all activities in your environment

Access Right Control
Grant access to groups or individuals

Password Policy
A password is protected using AES 256-bit

Application Security
Developed using international best practices – SEI CMMI standards

ISO 27001:2013
Certified Management Systems

Our Implementation and Unmatched Support

Our first class support starts from launch to on-boarding with a goal to get you up-and-running within two weeks time.

Implementation - With cross industry understanding of hundreds of companies since 1991, we offer first class expertise and walk with you in every step from goal setting, execution to going live.

Training and adoption - We offer our-on-one training customised to each director's experience and comfort level on how to use HRMS in ways that can maximise effectiveness.

Support - We have our own help-desk and in-house employees trained to resolve problems efficiently and effectively ensuring no support delays.
